Shaner Corporate Fact Sheet

Description

Shaner is a dynamic, highly diversified company that participates in the hospitality, accounting services and equity investment markets. The company aggressively seeks new opportunities complementary to the expertise and experience of its management team and actively pursues investor participation in new ventures.

Shaner is conservative in its investment philosophy and targets long-term, sustainable profitability over the length of its investments. The company maintains an employee and family friendly work environment where associates are encouraged to grow professionally and make daily contributions to the company's success. Shaner conducts business through three distinct operating divisions: hospitality, equity investments and business solutions.

Growth Philosophy

Shaner has always been, and will continue to be, a growth-opportunistic company interested in investing in quality assets for the long term. Shaner actively pursues investor participation in the company's projects in both the hospitality and energy production markets, areas where Shaner's people possess distinctive knowledge and substantial experience.

Uncovering new opportunities, efficiently managing existing assets, trusting the business acumen of its management team and acknowledging the contributions of its workforce combine to favorably position Shaner for ongoing growth and excellent profitability.
